Color key: W = White, G = Gray, B = Black, N = Navy. When a design shows a color badge, use one of those shirt colors. Black and Navy are generally interchangeable; some artwork will not work on every color.

How it's made: This is AI-assisted artwork. I develop the concept, often using my original photos, direct the composition and revisions, correct and edit the imagery, handle the typography, and prepare the finished design for production.
